

Arizona's Sun Corridor

Open for Business

Industry Strengths in the Corridor

Transportation & Logistics/Company Headquarters

- Arizona's core communities are within a one-day driving distance to additional California markets such as New Mexico, Utah and Mexico.
- A secure infrastructure, mild weather and ideal location make the Sun Corridor one of the safest regions for avoiding losses from natural catastrophes.
- Arizona's Sun Corridor is at the ideal crossroads for east-west, coast-to-coast highway access via I-10, I-40, I-95 and I-8; Mexico access via I-95, I-8 and I-19; Union Pacific and BNSF rail capabilities across the US as well as south to Mexico; and multiple direct flights to other major US megapolitan areas.

What can Arizona offer you?
